featured in magazines such as the Journal of Accountancy and California CPA Magazine, Jeff Lenning, founder of Excel University, Inc., has shown thousands of CPAs and accounting professionals across the country how to use Excel more effectively. Drawing on his experience as an auditor, a financial analyst in industry, an accounting manager at a public company, and

a consultant, he has demonstrated how to leverage Excel in order to improve efficiency by reducing the time it takes to complete job tasks. Written to reach those he won't have the opportunity to meet in one of his CPE sessions, Lenning's series, Excel University: Microsoft Excel Training for CPAs and Accounting Professionals, offers a comprehensive collection of the features,

functions, and techniques that are of direct benefit to accountants working in industry, public practice, consulting, or not-for-profit. Concentrating on Excel for Windows, his books offer a hands-on approach to learning and include narrative, screenshots, video content, Excel practice files, and exercises that demonstrate the practical application of the items presented in each chapter.

<p>Visit <a href="http://www.excel-university.com">http://www.excel-university.com</a> to access the Excel University video library and to download the practice files. ### The Missing Manual

Penguin

A short, sharp guide to tackling life's biggest challenges: understanding ourselves and making the right choices.

Every day offers moments of decision, from what to eat for lunch to how to settle a dispute with a colleague. Still larger questions loom: How can I motivate my team? How can I work more efficiently? What is the long tail anyway?

Whether you're a newly minted MBA, a chronic second-guesser, or just someone eager for a new vantage point, The Decision Book presents fifty models for better structuring, and subsequently understanding , life's steady challenges. Interactive and thought-provoking, this illustrated workbook offers succinct summaries of popular strategies, including the Rubber Band Model for

dilemmas with many directions, the Personal Performance Model to test whether to change jobs, and the Black Swan Model to illustrate why experience doesn't guarantee wisdom. Packed with familiar tools like the Pareto Principle, the Prisoner's Dilemma, and an unusual exercise inspired by Warren Buffet, *The Decision Book* is the ideal reference for flexible thinkers.

 This report reviews engineering's importance to human, economic, social and cultural development and in addressing the UN Millennium Development Goals.

Engineering tends to be viewed as a national issue, but engineering knowledge, companies, conferences and journals, all demonstrate that it is as international as science. The report reviews the role of engineering in development, and covers issues including poverty reduction, sustainable development, climate change mitigation and adaptation. It presents the

various fields of engineering around the world and is intended to identify issues and challenges facing engineering, promote better understanding of engineering and its role, and highlight ways of making engineering more attractive to young people, especially women.-- Publisher's description.
