In the Country of Hearts,  
Alice has started  
developing feelings for  
the angsty Clockmaker.  
She can see past Julius's  
doom and gloom to the  
gentle soul inside. When  
the path back home starts

opening at last, Alice  
wonders if she'll be able  
to leave Julius when the  
time comes. Will she give  
up her world for a man  
who can barely voice his  
feelings? Love is timeless,  
but even in Wonderland  
the clock is always  
ticking.

ballo l'acquisto di un

cambio di seicentomila dollari è senza valore, una truffa. Forse pensano che sia uno stupido, questi miserabili che osano intralciare l'operazione Darius. A Stephan gliela farà letteralmente mangiare tutta, la sua polvere, fino a fargli scoppiare i polmoni: sarà un messaggio eloquente per quelli che l'hanno mandato. Ai due ceceni basterà sparare in testa. Dopodiché l'operazione potrà continuare. A meno che Sua Altezza Serenissima Malko Linge, convocato dal capo della

stazione CIA di Budapest, non riesca a impedirlo. Perché il Principe delle Spie è una vera arma di distruzione di massa. I Am Legion Simon and Schuster  
Drawing on substantive research from various disciplines, Ellen Esrock shows that the reader's visual imagery can have unique cognitive and affective consequences that heighten not only the experience of reading but also the scholarly study of literature. "In exploring the familiar problem of 'reader response,' Ellen

Esrock shifts the emphasis to visual response--asking what it is that readers 'see' in the 'mind's eye' as they read. She poses questions in as clear a form as possible, surveys the most important answers provided by literary and psychological scholarship, and suggests directions for further research and reflection. The Reader's Eye is a quite original book."--W. J. T. Mitchell, University of Chicago

The global conflict has reached a fever pitch. The Nazis are at the height of their power, but the Allies have had their first victories both in Stalingrad and in the Pacific. Never has the war's outcome been so much in doubt. Amidst this chaos, the destinies of several men will cross through a project code named "Legion," which consists of a series of horrific tests that a young Romanian girl with apparent supernatural abilities must undergo. Her 'skills,' if fully

exploited by the Nazis, would give them unimaginable power...

In The Chairman, the authoritative biography of John J.

McCloy, Pulitzer Prize-winning author Kai Bird chronicles the life of the

man labeled "the most influential private citizen in America." Against the backgrounds of World War II, the Cold War, the construction of Pax Americana, the Cuban missile crisis, the Kennedy assassination, and Vietnam, Bird shows us McCloy's astonishing rise from self-described "chore boy" to "chairman of the Establishment." His powerful circle shaped the postwar globe. But McCloy stood out among them as a towering figure of achievement: as a Wall Street lawyer who earned

the confidence of captains of industry and presidents; as Henry Stimson's right-hand man at the War Department; as president of the World Bank and chairman of the Chase financial empire; and as presidential adviser. Bird captures every facet of this self-made man. We see McCloy's commercial acumen as the most in-demand lawyer of Wall Street; his dictatorial will as high commissioner of occupied Germany; and his stoic loyalty as adviser to Presidents FDR,

Truman, Eisenhower, Kennedy, Johnson, Carter, Ford, and Reagan. Bird brilliantly explores how McCloy came to epitomize the American Establishment and the values of a generation that led the United States through bitter war and unparalleled prosperity.

"This marriage is not supposed to happen." Lombardy, 1628, a time of oppressive Spanish occupation of Northern Italy, and of the Thirty Years' War. The young

lovers Lorenzo and Lucia, both from peasant families, are planning their wedding. However, the villainous Don Rodrigo has designs on Lucia, and the lovers are forced to flee their village. Their dangerous journey in exile takes them through one of the most dramatic epochs in Italian history, filled with war, famine and plague - will they ever be able to find happiness together? Dave Eggers says, of the series: "I couldn't be prouder to be a part of it. Ever since Alessandro conceived this

idea I thought it was brilliant. The editions that they've compiled have been lushly illustrated and elegantly designed." S. A. S. Black Magic in New York Oxford University Press

The dynamics of immigration, international commerce and the postcolonial world make it inevitable that much translation is done into a second language, despite the prevailing wisdom that translators should only work into their mother tongue. This book is the first study to

explore the phenomenon of translation into a second language in a way that will interest applied linguists, translators and translation teachers, and ESOL teachers working with advanced level students. Rather than seeing translation into a second language as deficient output, this study adopts an interlanguage framework to consider L2 translation as the product of developing competence; learning to translate is seen as a special variety of second language

acquisition. Through carefully worked case studies, separate components of translation competence are identified, among them the ability to create stylistically authentic texts in English, the ability to monitor and edit output, and the psychological attitudes that the translator brings to the task. While the case studies mainly deal with Arabic speakers undergoing translator training in Australia, the conclusions will have implications for

translation into a second language, especially English, around the world. Translation into the Second Language is firmly grounded in empirical research, and in this regard it serves as a stimulus and a methodological guide for further research. It will be a valuable addition for advanced undergraduate and postgraduate students of applied linguistics, translation theory, bilingualism and second language acquisition as well as those involved in teaching

or practicing translation at a professional level.

Parviz Amritzar,  
pakistano, ha un unico scopo nella vita: vendicarsi. Un drone americano gli ha ucciso dei familiari nella zona tribale al confine tra il suo paese e l'Afghanistan. E lo strumento della sua ritorsione si chiama IGLA S, un missile antiaereo di fabbricazione russa utilizzato dai guerriglieri ceceni contro gli elicotteri nemici. Un'arma micidiale.

L'obiettivo di Parviz è spettacolare e devastante: abbattere l'Air Force One su cui viaggia il presidente degli Stati Uniti. Solo così la sua sete di vendetta per il sangue versato sarà placata. Una minaccia dietro cui si cela una macchinazione che lascerà molte vittime sul campo. Per neutralizzarla, la CIA ha una sola carta da giocare: Malko Linge. E così il Principe delle Spie dovrà compiere un salto mortale senza rete in territorio ostile, fino alla ex repubblica sovietica

del Daghestan. Un angolo di mondo dimenticato da tutti, dove uccidere è come respirare.

"An important transitional book, usefully summarizing the past and thoughtfully mapping out the future of a significant critic's theoretical project."- Modern Philology. "There is a much greater emphasis on the reader's function as 'performer' of the text in *Prospecting* than in Iser's other books. The

two brilliant chapters on Beckett's fiction and drama are crucial here... Literature becomes 'play' and 'game,' and the reader becomes a performer of himself. This idea of performance becomes central to Iser's new theory. Art does not present life; it performs it."- Yearbook of English Studies.

From the New York Times bestselling author of The

House at Tyneford, an epic family saga about a headstrong Austrian heiress who will be forced to choose between the family she's made and the family that made her at the outbreak of World War I. Vienna, 1911. Twenty-one-year-old Greta Goldbaum has always hungered after what's forbidden: secret university lectures, unseemly trumpet lessons, and most of all, the freedom to choose her life's path. The Goldbaum family has different expectations. United

across Europe by unsurpassed wealth and power, Goldbaum men are bankers, while Goldbaum women marry Goldbaum men to produce Goldbaum children. Greta will do her part. So Greta moves to England to wed Albert, a distant cousin. The marriage is not a success. Yet, when Albert's mother gives Greta a garden, things at Temple Court begin to change. First Greta falls in love with her garden, then with England, and finally with her husband. But when

World War I sends both Albert and Greta's beloved brother, Otto, to the front lines--one to fight for the Allies, one to fight for the Central Powers--the House of Gold is left vulnerable as never before, and Greta must choose: the family she's created or the one she was forced to leave behind. Set against a nuanced portrait of World War I, this is a sweeping family saga rich in historical atmosphere and heartbreakingly human characters. House of Gold is Natasha Solomons's

most dazzling and moving novel yet.

Area caldissima il Portogallo, per l'Agenzia, che si è fatta cogliere di sorpresa dalla Rivoluzione dei garofani e ora si ritrova con un paese che pullula di spioni del KGB. coppia viene improvvisamente bloccata dai militari e la loro auto crivellata da raffiche di mitra. Lui muore. Lei, ferita, viene portata via. Joe ha scattato foto di tutto, e ora quelle immagini Malko Linge se le vede scorrere davanti agli occhi negli uffici della CIA a Lisbona. Toccherà a lui intervenire nella guerra sotterranea che si sta combattendo da quelle parti. Brutta grana per il Principe delle Spie, in un angolo d'Europa ad altissimo tasso d'infiltrazione sovietica.
