In 9th century China, a little girl sends a small jade pebble to travel with her father along the Silk Road. The pebble passes from his hand all the way to the Republic of Venice, the end of the Silk Road, where a boy cherishes it and sees the value of this gift from a girl at the end of the road. A Neal Porter Book

Ancient Glass Research along the Silk Road Tauris Parke

Maps don't just show us where to go, but also where we've been. A stunning overview of all human history, side by side with 140 custom maps. Learn how something like the printing press can define a time, or how the Allies in Europe could defeat the Nazis. There is so much to read about in this remarkable history book, and just as much to look at. Maps are more than the topography of the Earth, or the borders of countries. Maps can represent the movement of people and ideas, and they provide a unique way to explain historical themes and explore sweeping periods of time. This stunning visual reference book starts with the evolution and

migration of our oldest ancestors out of Africa. You can then look up maps about the Greece and Persian War, the Mongol Conquests, Medieval Europe's trade routes, and the rise of the Ottomans. There are maps about the colonisation of North America, the scientific revolution, Napoleon's advances, and Britain's control of India. There's more in later centuries, such as the Age of Imperialism, the American Civil War, industrialised Europe and the transformation of Japan. This history book reaching across millennia gives you a broad view of the pivotal events in our past. With 140 maps, complimented with pictures, info boxes and timelines, there's so much to enjoy and learn about. You will gain a strong understanding of some of the forces and movements across continents that have shaped our world. A Map Guided Tour of World History Inside this beautiful cover is concise and fascinating historical information, 140 custom maps and many ways to engage in history that will interest many readers, from students wanting additional resources for school, to history buffs that love a good book and cartography. Go on guided tour through time: - Prehistory 7 MYA-3000 BCE - The Ancient World 3000 BCE - 500 CE - Middle Ages 500-1450 CE - The Early Modern World 1450-1700 - Revolution and Industry

1700-1850 - Progress and Empire 1850-1914 - The Modern World 1914-Present

**The Prehistory of the Silk Road** Bloomsbury Wildlife

From the best-selling author of Republic of Fear, here is a gritty and unflinching novel about Iraqi failure in the wake of the 2003 American invasion, as seen through the eyes of a Shi'ite militiaman whose participation in the execution of Saddam Hussein changes his life in ways he could never have anticipated. When the nameless narrator stumbles upon a corpse on April 10, 2003, the day of the fall of Saddam Hussein, he finds himself swept up in the tumultuous politics of the American occupation and is taken on a journey that concludes with the discovery of what happened to his father, who disappeared into the Tyrant's gulag in 1991. When he was a child, his questions about his father were ignored by his mother and his uncle, in whose house he was raised. Older now, he is fighting in his uncle's Army of the Awaited One, which is leading an insurrection against the Occupier. He slowly begins to piece together clues about his father's fate, which turns out to be intertwined with that of the mysterious corpse. But not until the last hour before the Tyrant's execution is the narrator given the final piece of the puzzle—from Saddam Hussein himself. The Rope is both a powerful examination of the birth of sectarian politics out of a legacy of betrayal, victimhood, secrecy, and loss, and an enduring story about the haste with which identity is cobbled together and then undone. Told with fearless honesty and searing intensity, The Rope will haunt its readers long after they finish the final page.

The Silk Road: Central Asia, Afghanistan and Iran Univ of California Press

The phrase "silk road" evokes vivid scenes of merchants leading camel caravans across vast stretches to trade exotic goods in glittering Oriental bazaars, of pilgrims braving bandits and frozen mountain passes to spread their faith across Asia. Looking at the reality behind these images, this Very Short Introduction illuminates the historical background against which the silk road flourished, shedding light on the importance of old-world cultural exchange to Eurasian and world history. On the one hand, historian James A. Millward treats the silk road broadly, to stand in for the cross-cultural communication between peoples across the Eurasian continent since at least the Neolithic era. On the other, he highlights specific examples of goods and ideas exchanged between the Mediterranean, Persia, India, and China, along with the significance of these exchanges. While including silks, spices, and travelers' tales of colorful locales, the book explains the dynamics of Central Eurasian history that promoted Silk Road interactions--especially the role of nomad empires--highlighting the importance of the biological, technological, artistic, intellectual, and religious interchanges across the continent. Millward shows that these exchanges had a profound effect on the old world that was akin to, if not on the scale of, modern globalization. He also disputes the idea that the silk road declined after the collapse of the Mongol empire or the opening of direct sea routes from Europe to Asia, showing how silk road phenomena continued through the early modern and modern expansion of the Russian and Chinese states across Central Asia. Millward concludes that the idea of the silk road has remained powerful, not only as a popular name for boutiques and restaurants, but also in modern politics and diplomacy, such as U.S. Secretary of State Hilary Clinton's "Silk Road Initiative" for India, Pakistan, and Afghanistan.

**Studies on the History and Culture Along the Continental Silk Road** Princeton University Press

Shelagh Vainker traces the cultural history of silk in China from its Neolithic origins to the twentieth century, considering its role in Chinese history, trade, religion and literature as well as its

relationship to the other decorative arts. Drawing upon the most recent archaeological evidence from less perishable media such as jades, bronzes and ceramics along with paintings, poems and other texts, she brings together a wide range of material including some sources available until now only in Chinese. Recent acquisitions by public and private collections in the United States, Hong Kong and Europe are also included. The result is a book that illuminates the luxury of silk throughout the ages.

**Silk Roads** Penguin

The saga of the seventh-century Chinese monk Xuanzang, who completed an epic sixteen-year journey to discover the heart of Buddhism at its source in India, is a splendid story of human struggle and triumph. One of China's great heroes, Xuanzang is introduced here for the first time to Western readers in this richly illustrated book.

The Geography Colouring Book provides a reference book of facts regarding population, land size, languages, religions, exports, climate, etc., plus information about unique geographic features and events of historic significance. Each section begins with a plate containing a political map, a physical map and regional maps. Through active participation by colouring, the student can gain a broader understanding of the material and retain more information. The text also includes a new Geographical Dictionary and covers the five nations rising out of the former Yugoslavia. It aids in recognizing countries by shape as well as location and gaining a sense of the relative sizes of nations and states \*Each section begins with a plate containing a political map, a physical map, and regional maps \*Through active participation, coloring the maps, students gain a broader understanding of the material and retain more information

**The Sky Atlas** Springer Nature

From Roman times until the Age of Exploration, the Silk Road carried goods and ideas across Central Asia between two major centers of civilization, the Mediterranean Sea and China. In The

Silk Road: Explore the World's Most Famous Trade Route, readers ages 9–12 will learn about the history, geography, culture, and people of the Silk Road region. Marco Polo was just one of many who set out on the Silk Road in search of wealth, power, or knowledge. These adventurers braved vast deserts, towering mountain peaks, warring tribes, and marauding bandits. Silk garments, wool rugs, and fine glass were the prizes for those who survived the trip. Activities using everyday materials bring the Silk Road to life. Young readers will see how ideas in math, science, religion, and art were spread by travelers along with the treasures they found. The Silk Road takes readers on an exciting, interactive adventure to a faraway place and celebrates its important role in human history and development. .

**The Silk Roads** Nomad Press

According to tradition, the First Crusade began at Pope Urban II's instigation and culminated in July 1099, when western European knights liberated Jerusalem. But what if the First Crusade's real catalyst lay far to the east of Rome? Countering nearly a millennium of scholarship, Peter Frankopan reveals the First Crusade's untold history.

*The Silk Roads* Penguin

Launched in 2013, China's Belt and Road Initiative is forging connections in infrastructure, trade, energy, finance, tourism, and culture across Eurasia and Africa. This extraordinarily ambitious strategy places China at the center of a geography of overland and maritime connectivity stretching across more than sixty countries and incorporating almost two-thirds of the world's population. But what does it mean to revive the Silk Roads for the twenty-first century? Geocultural Power explores this question by considering how China is couching its strategy for building trade, foreign relations, and energy and political security in an evocative topography of history. Until now Belt and Road has been discussed as a geopolitical and geoeconomic project. This book introduces geocultural power to the analysis of international affairs. Tim Winter highlights how many countries—including Iran, Sri Lanka, Kenya, Malaysia, Indonesia, Pakistan, and others—are revisiting their histories to find points of diplomatic and cultural connection. Through the revived Silk Roads, China becomes the new author of Eurasian history and the architect of the bridge between East and West. In a diplomatic dance of forgetting, episodes of violence, invasion, and bloodshed are left behind for a language of history and heritage that crosses borders in ways that further the trade ambitions of an increasingly networked China-driven economy.

*A Single Pebble* Springer Nature

From the Sunday Times and internationally bestselling author of *The Silk Roads: everything you need to know about the present and future of the world* 'Masterly mapping out of a new world order' Evening Standard 'Frankopan is a brilliant guide to terra incognita' The Times *The New Silk Roads* – Peter Frankopan's follow-up to the 'Book of the Decade', *The Silk Roads* – takes a fresh look at the network of relationships being formed along the length and breadth of the Silk Roads today. The world is changing dramatically and in an age of Brexit and Trump, the themes of isolation and fragmentation permeating the western world stand in sharp contrast to events along the Silk Roads, where ties have been strengthened and mutual cooperation established. Following the Silk Roads eastwards from Europe through to China, by way of Russia and the Middle East, *The New Silk Roads* provides a timely reminder that we live in a world that is profoundly interconnected. In this prescient contemporary history, Peter Frankopan assesses the global reverberations of these continual shifts in the centre of power – all too often absent from headlines in the west. This important – and ultimately hopeful – book asks us to reread who we are and where we are in

the world, illuminating the themes on which all our lives and livelihoods depend. *The Silk Roads*, a major reassessment of world history, has sold over 1 million copies worldwide.

*Timelines of Everything* Bloomsbury Publishing

This open access book considers a pivotal era in Chinese history from a global perspective. This book's insight into Chinese and international history offers timely and challenging perspectives on initiatives like "Chinese characteristics", "The New Silk Road" and "One Belt, One Road" in broad historical context. *Global History with Chinese Characteristics* analyses the feeble state capacity of Qing China questioning the so-called "High Qing" (shèng qīng 盛清) era's economic prosperity as the political system was set into a "power paradox" or "supremacy dilemma". This is a new thesis introduced by the author demonstrating that interventionist states entail weak governance. Macao and Marseille as a new case study aims to compare Mediterranean and South China markets to provide new insights into both modern eras' rising trade networks, non-official institutions and interventionist impulses of autocratic states such as China's Qing and Spain's Bourbon empires.

*Art, Architecture and Religion Along the Silk Roads* University of Chicago Press

Far more than a history of the Silk Roads, this book is truly a revelatory new history of the world, promising to destabilize notions of where we come from and where we are headed next. From the Middle East and its political instability to China and its economic rise, the vast region stretching eastward from the Balkans across the steppe and South Asia has been thrust into the global spotlight in recent years. Frankopan teaches us that to understand what is at stake for the cities and nations built on these intricate trade routes, we must first understand their astounding pasts. Frankopan realigns our understanding of the world, pointing us eastward. It was on the Silk Roads that East and West first encountered each other through trade and conquest, leading to the spread of ideas, cultures and religions. From the rise and fall of empires to the spread of Buddhism and the advent of Christianity and Islam, right up to the great wars of the twentieth century—this book shows how the fate of the West has always been inextricably linked to the East. Also available: *The New Silk Roads*, a timely exploration of the dramatic and profound changes our world is undergoing right now—as seen from the perspective of the rising powers of the East.

**Cave Temples of Mogao** Bloomsbury Publishing

Covering five thousand years of history and delving deeply into the archives the British Museum and other famous collections of art and antiquities, this fascinating tour of a storied trade route introduces readers to the sights, sounds, smells, and tastes of this legendary trail. (History)

*The Silk Road* Roaring Brook Press

The first complete history of Central Eurasia from ancient times to the present day, *Empires of the Silk Road* represents a fundamental rethinking of the origins, history, and significance of this major world region. Christopher Beckwith describes the rise and fall of the great Central Eurasian empires, including those of the Scythians, Attila the Hun, the Turks and Tibetans, and Genghis Khan and the Mongols. In addition, he explains why the heartland of Central Eurasia led the world economically, scientifically, and artistically for many centuries despite invasions by Persians, Greeks, Arabs, Chinese, and others. In retelling the story of the Old World from the perspective of Central Eurasia, Beckwith provides a new understanding of the internal and external dynamics of the Central Eurasian states and shows how their people repeatedly revolutionized Eurasian civilization. Beckwith recounts the Indo-Europeans' migration out of Central Eurasia, their mixture with local peoples, and the resulting

development of the Graeco-Roman, Persian, Indian, and Chinese civilizations; he details the basis for the thriving economy of premodern Central Eurasia, the economy's disintegration following the region's partition by the Chinese and Russians in the eighteenth and nineteenth centuries, and the damaging of Central Eurasian culture by Modernism; and he discusses the significance for world history of the partial reemergence of Central Eurasian nations after the collapse of the Soviet Union. *Empires of the Silk Road* places Central Eurasia within a world historical framework and demonstrates why the region is central to understanding the history of civilization.

The Sky Atlas unveils some of the most beautiful maps and charts ever created during humankind's quest to map the skies above us. This richly illustrated treasury showcases the finest examples of celestial cartography—a glorious art often overlooked by modern map books—as well as medieval manuscripts, masterpiece paintings, ancient star catalogs, antique instruments, and other curiosities. This is the sky as it has never been presented before: the realm of stars and planets, but also of gods, devils, weather wizards, flying sailors, ancient aliens, mythological animals, and rampaging spirits. • Packed with celestial maps, illustrations, and stories of places, people, and creatures that different cultures throughout history have observed or imagined in the heavens • Readers are taken on a tour of star-obsessed cultures around the world, learning about Tibetan sky burials, star-covered Inuit dancing coats, Mongolian astral prophets and Sir William Herschel's 1781 discovery of Uranus, the first planet to be found since antiquity. • A gorgeous book that delights stargazers and map lovers alike With thrilling stories and gorgeous artwork, this remarkable atlas explores our

fascination with the sky across time and cultures to form an extraordinary chronicle of cosmic imagination and discovery. The Sky Atlas is a wonderful book for map lovers, history buffs, and stargazers, but also for those who are intrigued by the many wonderful and bizarre ways in which humans have sought to understand the cosmos and our place in it. • A unique map book that expands beyond the terrestrial and into the celestial • A wonderful book for map lovers, obscure-history fans, mythology buffs, and astrology and astronomy lovers • Great for those who enjoyed *What We See in the Stars: An Illustrated Tour of the Night Sky* by Kelsey Oseid, *Maps by Aleksandra Mizielińska and Daniel Mizieliński*, and *Atlas of Remote Islands: Fifty Islands I Have Never Set Foot On and Never Will* by Judith Schalansky *Flora of the Silk Road* University of Pennsylvania Press

The ancient trade routes that made up the Silk Road were some of the great conduits of cultural and material exchange in world history. In this intriguing book, Xinru Liu reveals both why and how this long-distance trade in luxury goods emerged in the late third century BCE, following its story through to the Mongol conquest. Liu starts with China's desperate need for what the Chinese called "the heavenly horses" of Central Asia, and describes how the traders who brought these horses also brought other exotic products, some all the way from the Mediterranean. Likewise, the Roman Empire, as a result of its imperial ambition as well as the desire of its citizens for Chinese silk, responded with easterly explorations for trade. The book shows how the middle men, the Kushan Empire, spread Buddhism to China. Missionaries and pilgrims facilitated cave temples along the mountainous routes and monasteries in various oases and urban centers, forming the backbone of the Silk Road. The author also explains how Islamic and Mongol conquerors in turn controlled the various routes until the rise of sea travel diminished their importance.

*The Silk Roads* Rutgers University Press

The Silk Road - a name that has enchanted for centuries. Yet a well kept secret, even today, is that this fabled route linking Europe with Asia is also the most spectacular floral region on earth. Chris and Basak Gardner offer a unique pictorial celebration of the plants and scenery to be found along its 5,000 miles. Embracing Turkey, Syria, Lebanon, Iran, Central Asia and China, more than five hundred of the finest wild flowers are depicted together with the beautiful landscapes in which these botanical paradises are found. With an accompanying text giving descriptions of the species, plant families and their distribution, as well as information on photographing plants in the wild, this unique book will amaze and delight not only those with an interest in the spectacular and legendary landscapes that form the Silk Road but also plantmen and horticulturalists worldwide.
