La France toute catholique, sous le regne de Louys le Grand, ou Entretiens de quelques protestans françois, qui apres avoir reconnu que leur secte est impie et pernicieuse à l'Etat, prennent la belle resolution d'en hâter la ruine si heureusement entreprise par le Roi. On y trouvera une apologie pour l'Eglise romaine contre la satire intitulée Le Papisme et le calvinisme mis en parallele, et contre tous les autres libelles que les protestans ont donné au public depuis deux ans. Tome I [-III]

All'Insegna del Giglio

(Includes maps) From September 1943,  
when Allied troops came ashore near  
Salerno, until German surrender in May  
1945, 312,000 Allied soldiers were killed,  
wounded, or missing in Italy. Was a  
campaign that from the first faced the  
bleak prospect of coming to a dead end  
against the forbidding escarpment of the  
Alps worth that cost? Was the objective  
of tying down German troops to avoid  
their commitment in northwestern  
Europe all that the campaign might have

accomplished? The answers to those questions have long been sought but, as is the nature of history, must forever remain conjecture. What is established, as this volume makes clear, is the tenacity and intrepidity displayed by American and Allied soldiers in the face of a determined and resourceful enemy, harsh weather, sharply convoluted terrain, limited numbers, and indefinite goals in what many of them must have looked upon as a backwater of the war. This volume relates the story of the last year of their struggle. Three volumes previously published tell of the campaign in northwest Africa, the conquest of Sicily and covert politico-military negotiations leading to surrender of the Italian armed forces, and the campaign from the Allied landings on the mainland

through the bitter disappointment of the amphibious assault at Anzio. This volume is thus the capstone of a four-volume series dealing with American military operations in the western Mediterranean.

As a five year old girl in her native Costa Rica - a country which, in the early 20th century, had neither a medical school nor a tradition of higher education for women - Anita Figueredo decided to become a doctor. She was supported in this quest by her courageous mother, and thus begins a spirited, lifelong adventure in service that includes a nearly 40 year friendship with Mother Teresa. In this compelling and

affectionate memoir, one of the nine children of a pioneering woman surgeon searches for the secrets of her mother's extraordinary impact on her community, which extended from "home to...hospital, school, church and town, and eventually across international borders to the regions of desperation."

In spite of all the papers that others have written about the manuscript, there is no complete survey of all the approaches, ideas, background information and analytic studies that have accumulated over the nearly fifty-five years since the manuscript was discovered by Wilfrid M. Voynich in 1912. This report pulls together all the information the author could obtain from all the sources she has examined, and to

present it in an orderly fashion. The resulting survey will provide a firm basis upon which other students may build their work, whether they seek to decipher the text or simply to learn more about the problem.
