The Time of Our Lives Princeton University Press

Rather than depicting Herod as the merciless author of the Massacre of the Innocents, this work shows him to be a giant of a man who has many claims to greatness: as the protector of his people, as a soldier and diplomat and as a builder of cities throughout Palestine and the Temple at Jerusalem.

Rescuing Socrates Penguin

From author of *Waiting for the Barbarians* and Nobel Prize winner J.M. Coetzee. J.M. Coetzee's latest novel, *The Schooldays of Jesus*, is now available from Viking. *Late Essays: 2006-2016* will be

available January 2018. In a South Africa turned by war, Michael K. sets out to take his ailing mother back to her rural home. On the way there she dies, leaving him alone in an anarchic world of brutal roving armies. Imprisoned, Michael is unable to bear confinement and escapes, determined to live with dignity. This life affirming novel goes to the center of human experience—the need for an interior, spiritual life; for some connections to the world in which we live; and for purity of vision.

New York Times Bestseller Winner of the Los Angeles Times Book Prize Winner of the J. Anthony Lukas Award "Nimbly splices

together history, science, reporting and personal experiences into a taut and cautiously hopeful narrative.... Egan's book is bursting with life (and yes, death)." —Robert Moor, New York Times Book Review *The Great Lakes—Erie, Huron, Michigan, Ontario, and Superior—hold 20 percent of the world's supply of surface fresh water and provide sustenance, work, and recreation for tens of millions of Americans. But they are under threat as never before, and their problems are spreading across the continent. The Death and Life of the Great Lakes* is prize-winning reporter Dan Egan's compulsively readable portrait of an ecological catastrophe happening right before our eyes, blending the epic story of the lakes with an examination of the perils they face and the ways we can restore and preserve them for generations to come.

The Last Days of Jesus Sutton Publishing

Alexander the Great led soldiers from his perch atop his horse, Bucephalus. He commanded the largest army the world had ever known. He ruled a kingdom that stretched across two continents. Before he was 30, he was the richest man on the planet.

Alexander would know love, he'd know loss, but he'd never know an end to his ambitions. Only his death ended his conquest.

Today, over 2,000 years later, generals still study Alexander's battle plans. Manuscripts preserved at libraries he founded were used by historians to give us a record of his life. Alexander was more than just a king. He embraced the culture of the countries he invaded. He spread democracy. In many ways, Alexander was more of a liberator than a conqueror. In this new book for young adults, middle grade readers can experience the life and times of Alexander the Great.

This selection of Times obituaries from 1872 to 2014 revisits the lives of 125 women who have all, in their own way, played an important part in women's educational, professional, social, cultural and emotional journey over the best part of two centuries. The anthology starts with the obituary of 91-year-old pioneering mathematician and scientist Mary Somerville (d. 1872) and concludes with that of 110-year-old concert pianist and Holocaust survivor Alice Herz-Sommer (d. 2014). In between come a formidable trio of later scientists: the discoverer of radium Marie Curie; the unsung heroine of DNA, Rosalind Franklin; and the only British woman to win a Nobel Prize for science, Dorothy Hodgkin. Plus a further quintet of great pianists: Clara Schumann, Myra Hess, Eileen Joyce, Tatiana Nikolayeva and Moura Lympany. Among campaigners, there is nursing reformer Florence Nightingale (d. 1910), along with suffragists Emmeline, Christabel and Sylvia Pankhurst (d. 1928, 1958 and 1960), the 20th century's best-known promoter of contraception (Marie Stopes, d. 1958), civil rights worker Rosa Parks (d. 2005), founder of the hospice movement Cicely Saunders (d. 2005), anti-apartheid campaigner Helen Suzman (d. 2009) and Nobel Prize-winning environmentalist Wangari Maathai (d. 2011).

Interspersed are women prime ministers from Golda Meir of Israel (d. 1978) to Margaret Thatcher (d. 2013); actresses from Sarah Bernhardt (d. 1923) to Marilyn Monroe (d. 1962) and Elizabeth Taylor (d. 2011); novelists from George Eliot (d. 1880) to Doris Lessing (d. 2013); singers from Jenny Lind (d. 1887) to Joan Sutherland (d. 2010); plus aviators, a mountaineer, a Channel

swimmer, war correspondents, ballerinas, sportswomen, botanists, US first ladies, iconic members of the British royal family, and more.

The Warmth of Other Suns Mitchell Lane Publishers, Inc.
 #1 NEW YORK TIMES BESTSELLER • “A lucid, intelligent page-turner” (Los Angeles Times) that challenges long-held assumptions about Jesus, from the host of Believer Two thousand years ago, an itinerant Jewish preacher walked across the Galilee, gathering followers to establish what he called the “Kingdom of God.” The revolutionary movement he launched was so threatening to the established order that he was executed as a state criminal. Within decades after his death, his followers would call him God. Sifting through centuries of mythmaking, Reza Aslan sheds new light on one of history’s most enigmatic figures by examining Jesus through the lens of the tumultuous era in which he lived. Balancing the Jesus of the Gospels against the historical sources, Aslan describes a man full of conviction and passion, yet rife with contradiction. He explores the reasons the early Christian church preferred to promulgate an image of Jesus as a peaceful spiritual teacher rather than a politically conscious revolutionary. And he grapples with the riddle of how Jesus understood himself, the mystery that is at the heart of all subsequent claims about his divinity. Zealot yields a fresh perspective on one of the greatest stories ever told even as it affirms the radical and transformative nature of Jesus’ life and mission. Praise for Zealot “Riveting . . . Aslan synthesizes Scripture and scholarship to create an original account.”—The New Yorker “Fascinatingly and convincingly drawn . . . Aslan may come as close as one can to respecting those who revere Jesus as

the peace-loving, turn-the-other-cheek, true son of God depicted in modern Christianity, even as he knocks down that image.”—The Seattle Times “[Aslan’s] literary talent is as essential to the effect of Zealot as are his scholarly and journalistic chops. . . . A vivid, persuasive portrait.”—Salon “This tough-minded, deeply political book does full justice to the real Jesus, and honors him in the process.”—San Francisco Chronicle “A special and revealing work, one that believer and skeptic alike will find surprising, engaging, and original.”—Jon Meacham, Pulitzer Prize-winning author of Thomas Jefferson: The Art of Power “Compulsively readable . . . This superb work is highly recommended.”—Publishers Weekly (starred review)

Toast of the Town Penguin

'I couldn't put this book down. Malcolm inspired us to make art out of our boredom and anger. He set us free' Bobby Gillespie, Primal Scream Included in the Guardian 10 best music biographies 'Excellent . . . With this book, Gorman convincingly moves away from the ossified image of McLaren as a great rock'n'roll swindler, a morally bankrupt punk Mephistopheles, and closer towards his art-school roots, his love of ideas. Tiresome, unpleasant, even cruel - he was, this book underlines, never boring' Sunday Times 'Exhaustive . . . compelling' Observer 'Definitive . . . epic' The Times 'Gobsmacker of a biography' Telegraph 'This masterful and painstaking biography opens its doorway to an era of fluorescent disenchantment and outlandish possibility' Alan Moore Malcolm McLaren was one of the most culturally significant but misunderstood figures of the modern era. Ten years after his life was cruelly cut short by cancer, The Life & Times of Malcolm McLaren sheds fascinating new light on

the public achievements and private life of this cultural iconoclast and architect of punk, whose championing of street culture movements including hip-hop and Voguing reverberates to this day. With exclusive contributions from friends and intimates and access to private papers and family documents, this biography uncovers the true story behind this complicated figure. McLaren first achieved public prominence as a rebellious art student by making the news in 1966 after being arrested for burning the US flag in front of the American Embassy in London. He maintained this incendiary reputation by fast-tracking vanguard and left-field ideas to the centre of the media glare, via his creation and stewardship of the Sex Pistols and work with Adam Ant, Boy George and Bow Wow Wow. Meanwhile McLaren's ground-breaking design partnership with Vivienne Westwood and his creation of their visionary series of boutiques in the 1970s and early '80s sent shockwaves through the fashion industry. The Life & Times of Malcolm McLaren also essays McLaren's exasperating Hollywood years when he broke bread with the likes of Steven Spielberg though his slate of projects, which included the controversial Heavy Metal Surf Nazis and Wilde West, in which Oscar Wilde introduced rock'n'roll to the American mid-west in the 1880s, proved too rich for the play-it-safe film business. With a preface by Alan Moore, who collaborated with McLaren on the unrealised film project Fashion Beast, and an essay by Lou Stoppard casting a twenty-first-century perspective over his achievements, The Life & Times Of Malcolm McLaren is the explosive and definitive account of the man dubbed by Melvyn Bragg 'the Diaghilev of punk'.

NATIONAL BESTSELLER • “An excellent introduction to a critical period in the history of Rome. Cicero comes across much as he must have lived: reflective, charming and rather vain.”—The Wall Street Journal “All ages of the world have not produced a greater statesman and philosopher combined.”—John Adams He squared off against Caesar and was friends with young Brutus. He advised the legendary Pompey on his botched transition from military hero to politician. He lambasted Mark Antony and was master of the smear campaign, as feared for his wit as he was for his ruthless disputations. Brilliant, voluble, cranky, a genius of political manipulation but also a true patriot and idealist, Cicero was Rome’s most feared politician, one of the greatest lawyers and statesmen of all times. In this dynamic and engaging biography, Anthony Everitt plunges us into the fascinating, scandal-ridden world of ancient Rome in its most glorious heyday—when senators were endlessly filibustering legislation and exposing one another’s sexual escapades to discredit the opposition. Accessible to us through his legendary speeches but also through an unrivaled collection of unguarded letters to his close friend Atticus, Cicero comes to life as a witty and cunning political operator, the most eloquent and astute witness to the last days of Republican Rome. Praise for Cicero “ [Everitt makes] his subject—brilliant, vain, principled, opportunistic and courageous—come to life after two millennia.”—The Washington Post “ Gripping . . . Everitt combines a classical education with practical expertise. . . . He writes fluidly.”—The New York Times “In the half-century before the assassination of Julius Caesar . . . Rome endured a series of crises, assassinations, factional bloodletting, civil wars and civil strife, including at one point

government by gang war. This period, when republican government slid into dictatorship, is one of history's most fascinating, and one learns a great deal about it in this excellent and very readable biography."—The Plain Dealer "Riveting . . . a clear-eyed biography . . . Cicero's times . . . offer vivid lessons about the viciousness that can pervade elected government."—Chicago Tribune "Lively and dramatic . . . By the book's end, he's managed to put enough flesh on Cicero's old bones that you care when the agents of his implacable enemy, Mark Antony, kill him."—Los Angeles Times

A Dominican-born academic tells the story of how the Great Books transformed his life—and why they have the power to speak to people of all backgrounds. What is the value of a liberal education? Traditionally characterized by a rigorous engagement with the classics of Western thought and literature, this approach to education is all but extinct in American universities, replaced by flexible distribution requirements and ever-narrower academic specialization. Many academics attack the very idea of a Western canon as chauvinistic, while the general public increasingly doubts the value of the humanities. In *Rescuing Socrates*, Dominican-born American academic Roosevelt Montás tells the story of how a liberal education transformed his life, and offers an intimate account of the relevance of the Great Books today, especially to members of historically marginalized communities. Montás emigrated from the Dominican Republic to Queens, New York, when he was twelve and encountered the Western classics as an undergraduate in Columbia University's renowned Core Curriculum, one of America's last remaining Great Books

programs. The experience changed his life and determined his career—he went on to earn a PhD in English and comparative literature, serve as director of Columbia's Center for the Core Curriculum, and start a Great Books program for low-income high school students who aspire to be the first in their families to attend college. Weaving together memoir and literary reflection, *Rescuing Socrates* describes how four authors—Plato, Augustine, Freud, and Gandhi—had a profound impact on Montás's life. In doing so, the book drives home what it's like to experience a liberal education—and why it can still remake lives.

Here is a lively history of modern physics, as seen through the lives of thirty men and women from the pantheon of physics. William H. Cropper vividly portrays the life and accomplishments of such giants as Galileo and Isaac Newton, Marie Curie and Ernest Rutherford, Albert Einstein and Niels Bohr, right up to contemporary figures such as Richard Feynman, Murray Gell-Mann, and Stephen Hawking. We meet scientists--all geniuses--who could be gregarious, aloof, unpretentious, friendly, dogged, imperious, generous to colleagues or contentious rivals. As Cropper captures their personalities, he also offers vivid portraits of their great moments of discovery, their bitter feuds, their relations with family and friends, their religious beliefs and education. In addition, Cropper has grouped these biographies by discipline--mechanics, thermodynamics, particle physics, and others--each section beginning with a historical overview. Thus in the section on quantum mechanics, readers can see how the work of Max Planck influenced Niels Bohr, and how Bohr in turn influenced Werner Heisenberg. Our understanding of the physical world has increased dramatically in the last four centuries. With *Great Physicists*, readers can retrace the footsteps of the men and women who led the way.

A San Francisco Chronicle Best Book of the Year. "A work of scope and profound insight into the divided soul of Mexico." —History Today The Life and Times of Mexico is a grand narrative driven by

3,000 years of history: the Indian world, the Spanish invasion, Independence, the 1910 Revolution, the tragic lives of workers in assembly plants along the border, and the experiences of millions of Mexicans who live in the United States. Mexico is seen here as if it were a person, but in the Aztec way; the mind, the heart, the winds of life; and on every page there are portraits and stories: artists, shamans, teachers, a young Maya political leader; the rich few and the many poor. Earl Shorris is ingenious at finding ways to tell this story: prostitutes in the Plaza Loreto launch the discussion of economics; we are taken inside two crucial elections as Mexico struggles toward democracy; we watch the creation of a popular "telenovela" and meet the country's greatest living intellectual. The result is a work of magnificent scope and profound insight into the divided soul of Mexico.

The #1 New York Times bestseller. Over 4 million copies sold! *Tiny Changes, Remarkable Results* No matter your goals, *Atomic Habits* offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily

applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

The *Life and Times* of Chinua Achebe introduces readers to the life, literary works, and times of arguably the most widely-read African novelist of recent times, an icon, both in continental Africa and abroad. The book weaves together the story of Chinua Achebe, a young Igboman whose novel *Things Fall Apart* opened the eyes of the world to a more realistic image of Africa that was warped by generations of European travelers, colonists, and writers. Whilst continuing to write further influential novels and essays, Achebe also taught other African writers to use their skills to help their national leaders to fight for their freedoms in the post-colonial era, as internal warfare compounded the damage caused by European powers during the colonial era. In this book Kalu Ogbaa, an esteemed expert on Achebe and his works, draws on extensive research and personal interviews with the great man and his colleagues and friends, to tell the story of Achebe and his work. This intimate and powerful new biography will be essential reading for students and scholars of Chinua Achebe, and to anyone with an interest in the literature and post-colonial politics of Africa.
