The book "Global Financial markets and the ACI Dealing Certificate" is intended for Treasury professionals and ACI Dealing Certificate (New Version 002-101 syllabus) candidates. The ACI Dealing Certificate is a foundation programme that allows candidates to acquire a working knowledge of the structure and operation of the major financial markets (foreign exchange, money markets and derivatives), including the ability to apply the fundamental mathematics used in these markets and the basic skills required for competent participation. The industry-standard qualification also demands a basic understanding of global markets, risk management principles and internationally accepted best practices required to be followed by market participants. The ACI qualification and therefore this book, is designed for: - Recent entrants and junior dealers (0-24 months experience) in the dealing room - financial institution and corporate treasury personnel - Middle office and operations personnel - Compliance and risk officers. There are five core subject areas in the ACI Dealing Certificate syllabus: Financial markets environment, Foreign exchange, Rates (Money and interest rate markets), FICC Derivatives and Financial markets applications.

The ongoing turbulence in the global financial markets has drawn attention to an alternative system of financial intermediation: Islamic banking and finance. This is now one of the fastest growing sectors within the market place and has, so far, remained on the sidelines of this unrest. Since the inception of Islamic banking thirty years ago the number and reach of Islamic financial institutions worldwide has risen significantly. Institutions offering Islamic financial services constitute a significant and growing share of the financial system in several countries, and market participants everywhere are joining the race to study and be a part of this emerging financial system. The Islamic Banking and Finance Workbook is a one-of-a-kind workbook on the topic, enabling readers to test their understanding of Islamic banking and finance concepts. Although suitable as a standalone learning tool, the book is designed to test the information covered in the companion book, Introduction to Islamic Finance and Banking, and covers the fundamentals of Sharia'a law, the Islamic contracts interpretations and definitions, Murabaha, Mudaraba, Musharaka, Istisna'a, Salam and Ijara modes of finance, Takaful and much more. Emphasis is placed on mini case studies, multiple choice questions and tests of the basic concepts. It also includes a full answer key and brief chapter summaries, as well as learning objectives. The Islamic Banking and Finance Workbook is an essential learning tool for students and practitioners who want to test their knowledge of the rapidly growing world of Islamic banking and finance.
