 To motivate students to practice writing every day, this book explains how teachers can guide students to write daily news reports that will then be "published" in the classroom and read by other students. Two other daily writing lessons are also explained: daily journals and "experience stories." All the guided writing activities begin with the teacher modeling the writing process while getting student input for the contents of the writing; gradually, as the weeks go by, students take more and more ownership of the writing, which eventually becomes less formulaic (based at first on reproducible handouts) and more personal and

creative. Grades K-2. Illustrated. Good Year Books. 91 pages.

 Bestselling author Robert Masello guides working and aspiring writers alike with the hard-won advice, tricks of the trade, and indispensable encouragement that only a seasoned professional can provide. Although there's no shortage of books on writing and publishing, there's none quite like Robert's Rules of Writing: 111 Unconventional Lessons Every Writer Needs to Know. Drawing on his many years of experience as an award-winning journalist, TV writer, and the author of over twenty books published by mainstream houses and translated, to date, into nineteen languages, Robert Masello addresses all the issues that confront, and all the problems that beset,

writers of all stripes. Whether you're working on a novel or a script, a memoir or a blog, an epic poem or a newspaper piece, you're going to have to find the best way to express yourself clearly, persuasively, and entertainingly. You'll have to find your own personal voice (much harder than it sounds) and use that unique voice to convey your story, your thoughts, and your opinions, to the many readers out there that you're eager to reach; with complete candor and welcome irreverence, Robert's Rules of Writing offers the inside knowledge that will help you do just that. As provocative as they are amusing, these rules are purposely designed to challenge the old axioms and get you thinking afresh about your work. In well over a hundred short but pithy takes, Masello guides you over hurdles, around obstacles, and through the

seemingly insurmountable barriers to completion and ultimately publication—hooray!—of your writing. It's a lively, thought-provoking, and often downright funny addition to any veteran, or fledgling, writer's shelf.

In this empowering, accessible guide, Jaclyn Friedman—co-editor of Yes Means Yes—gives young women the tools to decipher the modern world's confusing, hypersexualized, sometimes dangerous landscape so they can define their own sexual identity. Friedman decries the hypocrisy and mixed messages of our culture (we're failures if we don't act sexy, but we're sluts if we actually pursue sex; we need to be protected from rapists lurking in bushes, but deserve "whatever we get" if we have a drink at a party and wear a skirt), and encourages readers to separate fear from fact, decode the damaging messages all around them, and discover a healthy personal sexuality. Educational and interactive, What You Really Really Want includes revealing quizzes, creative exercises, and reality-based advice about sex and sexuality today. With Friedman's informed advice to guide them, readers will build new skills for safely expressing their sexuality with lovers and explore effective ways to talk about tricky issues with family and friends—and learn how to make the world a little safer for everyone else's sexuality along the way.

What does 'literature' mean in our time? While names like Proust, Kafka and Woolf still stand for something, what that something actually is has become obscured by the claims of commerce and journalism. Perhaps a new form of attention is required. Stephen Mitchell more began writing online in 1996 and became Britain's first book blogger soon after, developing the form so that it can respond in kind to the singular space opened by writing. Across 44 essays, he discusses among many others the novels of Richard Ford, Jeanette Winterson and Karl Ove Knausgaard, the significance for modern writers of cave paintings and the moai of Easter Island, and the enduring fallacy of 'Reality Hunger', all the while maintaining a focus on the strange nature of literary space. By listening to the echoes and resonances of writing, this book enables a unique encounter with literature that

many critics habitually ignore. With an introduction by the acclaimed novelist Lars Iyer, This Space of Writing offers a renewed appreciation of the mystery and promise of writing.
