The U.S. History Quick Starts workbook

features warm-up activities that are grouped into the following units: The Land and First People; Explorers and Colonizers; Revolutionaries and Pioneers; Slavery, Freedom, and Technology; and The United States as a World Power. Some activities encourage creative thinking with open-ended projects like faux pioneer diary entries and short speeches supporting or opposing controversial issues. Other activities require memory and critical-thinking skills, such as cause and effect, compare and contrast, or sequencing.

Each page features two to four quick starts that can be cut apart and used separately. The entire page may also be used as a whole-class or individual assignment. The Quick Starts Series provides students in grades 4 through 8+ with quick review activities in science, math, language arts, and social studies. The activities provide students with a quick start for the day's lesson and help students build and maintain a powerful domain-specific vocabulary. Each book is correlated to current state, national, and provincial

standards. Mark Twain Media Publishing Company specializes in providing engaging supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, the product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character.

Coastlines, rivers and natural waters have a huge amount to offer young children, providing a unique environment for their learning and development. The environment and its almost daunting size touches something deep within the children and – surprisingly – the large space brings them closer together. This book provides a comprehensive guide to Natural Water School provision by exploring its special pedagogy, the organisation and management of the Water School session and discussing the learning environment and its implications for children’s wellbeing and development. It clearly explains the key principles of this recently developed, contemporary approach and sets out a framework for setting up and leading a Natural Water School programme. The book shows how the aims and outcomes of early years education, including the Early Years Foundation Stage can all be achieved within the Natural Water School environment and is supported by examples and case studies throughout. Full of practical suggestions and activities, it includes: Activity ideas covering topics such as wildlife, sensory activities, crafts,

social development, physical play and construction in different seasons Unique teaching tools to observe and develop the children Ideas for working with children of different ages and learning styles Detailed guidance on health and safety including risk assessments Offering a sound historical background, a solid pedagogical framework and a step-by-step guide to Natural Water School practice, this handy text will help students and practitioners to fully understand this new and increasingly popular approach to early years education and how it can benefit the children they care for.

Our 2nd edition *New York 3rd Grade ELA Test Prep for Common Core State Standards* is an excellent resource to assess and manage student's understanding of concepts outlined in the Common Core State Standards Initiative. The material emphasized in this book is placed on Reading Literature and Reading Informational Text Common Core

Standards. Practice problems in this book involve: answering questions that refer explicitly to stories as basis for answers; determining central messages, lessons, or moral as conveyed via key details in stories; determining meaning of words and phrases as they are used in the stories; describing how each successive part builds on earlier sections of the stories; distinguishing their own point of view apart from narrator or characters in stories; explaining specific aspects of

text's illustrations as it relates to the stories; and comparing and contrasting themes or plots in the stories. These standards are covered extensively through multiple-choice practice problems. This book contains over 250 practice problems aligned to each Common Core State Standard. In addition the book contains an answer key to practice problems. Paperback: 100 double-sided pages
